AUDREY WERNER

RN, B.S.N., M.A.

ABOUT ME

I address parent groups, teens and young adults, government leaders, and recently, the Texas Legislature and Uganda Parliament.

As an international speaker, I answer the question, "How do we protect our children, and then equip them to live pure lives?"

As a former sex educator and STD nurse, I share where the sex education message came from and what the true intent behind the message is. I also teach audiences how we need to respond.
